## 1. Hiring New Teachers

Several teachers have 'resigned' and we are currently hiring new members of staff. We encourage existing teachers to apply for positions they are interested in.

## 2. Student Safety

The school has decided to hire additional staff to protect students during the school term. Any other suggestions that could help improve student safety would be welcome.

## 3. Exam Results

Student academic performance has been in decline and so we plan to hire more academic tutors to assist students after class and on weekends. Staff who participate will receive bonus pay.

## 1. Exam Results

All teachers should be willing to offer extra assistance to students in need. A careers fair should also be organised to help prepare older students for life after school.

## 2. Special Classes

Giving students credit or house points for helping others might also help improve academic performance, as well as help create a strong and friendly community atmosphere.

## 3. Dating and School Uniforms

Students should be allowed to date other students, but public displays of affection are not encouraged. Students should also ensure they wear their school uniform while in class and during school ceremonies.

A large, bearded man with long brown hair and a brown coat, holding a green bucket, stands next to a large brown dog. The man is wearing a brown coat over a red shirt and dark pants. The dog is a large, brown breed, possibly a Mastiff or Neapolitan Mastiff, sitting and looking towards the camera.

## 1. Student Safety

Students should be taught how to deal with dangerous animals by qualified instructors. Textbooks aren't enough if you want students to be ready for the real world.

## 2. Student Pets

Students have been asking if they can have multiple pets at school, particularly owls, rats, frogs and cats. As long as the student is responsible, there shouldn't be a problem with this.

## 3. Career Development

It's important to ensure teachers continue to develop their professional knowledge and skills. Having an inter-school transfer program would be fun and cost-effective way share knowledge and make professional connections.

## 1. Student Safety

Any staff that are hired to provide protection must be government registered and have had a police background check done within the last six months.

## 2. Student Pets

No pets should be allowed at school as they are noisy, messy and will distract students during the exam period. The school does not have the facilities to care for sick animals and pets could be a problem for students with allergies.

## 3. Hiring New Teachers

All teachers should have a university degree and be registered with the Department of Education. Any current teachers who do not meet these standards should be fired immediately.

A detailed portrait of Severus Snape, played by Alan Rickman. He has long, dark, wavy hair and is wearing a black, high-collared robe with a visible row of buttons. He is looking slightly to the right with a serious, stern expression.

## 1. Fights and Bullying

We should not tolerate fighting or bullying between students. Any student caught fighting and causing injury to another will face punishment and possible expulsion.

## 2. Exam Results

While exam results have been disappointing this year, students also have a responsibility to actually study for their exams and not waste their time on games and sport. Why should teachers have to put in extra hours to help lazy students?

## 3. Stealing and Theft

Students have been caught stealing from teachers, particularly exam materials and papers. Teachers must be careful and ensure their offices remain locked when absent.

# *Harry Potter*

## 1. Fights and Bullying

Students should be able to stand up for themselves, and defend themselves if attacked. Violent behaviour shouldn't be accepted but immediate expulsion is too strict.

## 2. Dating and School Uniforms

What sort of things are not allowed in public? Hugging? Kissing? Holding hands? The rules should be clear. Should students wear uniforms on the weekends? What about after classes?

## 3. Student Pets

The school has always allowed us to have pets. Banning pets now would go against tradition and would be a very unpopular move. Many students rely on their pets for company and some can even deliver letters!
