

JUSTIN

“ I really want to get into Greenhill because it's the best school in the state and one of the best in the country. My parents have high expectations for me but I'm not so sure about the interview. I'm sure I'll do well on the entrance exams because I've always been good at tests, but I become a nervous wreck when I have to give a speech or talk in front of people. **”**

“

Greenhill is the only school that offers multiple foreign languages like Chinese and Spanish, which makes it my first choice. I really want to become a professional translator and I've heard the teachers here are second to none. I hope the other students aren't stupid or lazy because I really don't have time to deal with idiots.

“

Greenhill is one of only two schools in the state that accept international students and the only one that offers scholarships. I also have several family members who live in the area who recommended I attend this school. I've heard great things about the teachers here and am really looking forward to studying software design and advanced physics.

Greenhill has always produced excellent students. It's not just the teachers, but also the great world-class facilities. A huge library, two gyms, two pools and four football fields make this a fantastic place to go if you're an athlete. I'm also really happy they have dormitories for students to live on-campus which means I don't have to travel to-and-from school and can focus on my studies.

“ Greenhill graduates are all but guaranteed placement at a top ten university. Employers also look favourably on alumnus, so I’m really hoping I can get in. I’ve worked hard my whole life – in part to make my parents happy because I know they’ve sacrificed a lot of time and money to send me to school. If I can snag a scholarship, my parents could finally take a holiday. I really want them to stop worrying about me. ”

I'm sick of living at home with my parents. Even though I get good grades and act responsibly, they keep pushing me more and more. Greenhill is the only school anywhere near my house that offers boarding. If I get into Greenhill, I can avoid my parents and stay close to my friends – several of whom have also applied.

On top of being one of the best schools here, I've also heard Greenhill has the most beautiful girls in the state. Mum and Dad want me to go and said they're happy to pay the fees, so it's really a win-win situation for everyone. I'm obviously prepared to work hard and push myself as I really want to get into university and meet even more hot chicks!

My older brother and sister both went here so it'll be very embarrassing if I don't get in. There are other schools I could go to but I'm rather keen on Greenhill's new software design classes, especially since I've always been interested in computers and gadgets. I'm also hoping I can make a few new friends here since most of my old classmates don't have what it takes to pass the Greenhill Entrance Exam.
