Overall it's a decent place to stay. The rooms are spacious and fairly priced. The minibar was well stocked and the WIFI is fast. It's a bit of a hassle to locate, and they don't have a gym or a pool but I was impressed such a small establishment could provide such clean and efficient service.

Exceptional service and immaculate rooms. My wife and I were very impressed with the décor and spartan facilities. No parking or restaurant but there's a small shop selling snacks and drinks at the front desk. No frills budget accommodation with great 24-hour service! I'd happily stay again.

Pretty ordinary if you ask me. I complained repeatedly about the lack of basic amenities. No bathrobes, no slippers and not even a bloody hairdryer. Staff were able to accommodate requests for a travel adaptor but appeals for fresh fruit fell on deaf ears with only stale apples on offer...

An absolute pain in the arse to find, located in the middle of nowhere with no parking. What a joke! It's clean and cheap but completely lacking many of the basic necessities which totally spoiled our stay. When informed of such shortcomings, management were unapologetic. Don't waste your time here.

While not the best hotel I've ever stayed at, it's perfect for anyone who needs a nap before or after their flight. Great bed, nice gym and only 10 mins from the airport with a regular shuttle bus departing every 15 mins. It's a bit expensive so if you're on a budget, there are other options closer to the city.

I never expect much from airport hotels but this one wasn't bad. Clean rooms, a great gym and friendly 24-hour service. The staff are also incredibly handsome and polite! During my stay, I felt like the place was deserted, so I pretty much had the place to myself. Definitely worth considering!

Not bad for an airport hotel. Rooms were decent and well-lit. Comfy bed and clean bathroom made it a pleasant stay. Prices weren't cheap which was strange since the place was pretty empty. Staff were quiet but professional. Restaurant buffet was basic and nothing special. Good for a quick stopover.

Without a doubt the worst place I've ever stayed at in my life. A rat-infested overpriced dump. Location is terrible with no transport options except the airport shuttle bus. Don't bother complaining, management doesn't give a toss. You're better off sleeping in the airport terminal.

Remarkable bar and library with the cutest little ginger cat guarding the door! Easy to find and only a heartbeat away from the metro. Be warned - things can get a bit crazy especially on weekends with all the drunks and tourists running around. Otherwise an excellent place to stay.

Great location in the heart of the CBD 3 mins from a major subway station. Clean modern interior with awesome beds, fantastic restaurant buffet and a stunning mini-library and bar. There's also an adorable resident cat that sleeps near the front desk. Reasonable prices as well!

Noisy and full of loud obnoxious tourists, especially on Fridays and Saturdays. Interior is pretty cool, and the rooms are clean and tidy. Bar food is fantastic, even with all the other restaurant options nearby so you'll never be hungry. Mind your belongings though as security is pretty much non-existent...

The staff were super friendly and the food was great – especially the breakfast buffet. The entire building was spotless, as were the rooms. Soft plush beds and fast WIFI but the place gets pretty crazy on the weekends, so if you're trying to get some sleep, I'd stay elsewhere.

I spent my honeymoon here with my husband and everything was just perfect. The staff were warm and welcoming, the food was incredible and the rooms offered great views of the city with all the little creature comforts like the dressing gowns and slippers. In-room Thai massage was great too!

The entire hotel is like a palace built for a prince. The pool was superb and also had an adjacent spa offering Thai massage. I must've gained at least ten kilos at the lunch buffet with limitless sushi and lobster on offer. Don't forget to check out the cinema and games room if you have the time!

My room had absolutely spectacular panoramic views of the city. The lunch buffet is amazing with all-you-can-eat sushi and seafood. The gym is huge and the pool ridiculously large. That being said, you're definitely paying for the privilege so I wouldn't be staying here if you're on a budget...

This place is a total rip-off! Awful service with overpriced valet parking. Found out upon arrival that they charge extra for children. I complained to management but was informed that it was 'company policy'. Don't stay here unless you want to pay an extra \$150 for the crime of having a car and children!
